It was really good to talk with others. But some students often talk in their language between each other and it makes me feel left of. I wish them all always speak English.

Meeting new people

I liked that I got to meet new people and have a conversation with them without a problem in English

i like the school , the family and visit the center of Granada i didn't like the garden because i'm allergic to plants

The Thing i liked the Most we're the people

I liked the thing of being in another country and see how families from here lived but i didn't like the Alhambra's gardens because i'm allergic to plants and i didn't felt well that day

I like everything, is a beautiful project that everyone should make.

My favorite part is talking with other people

I like the experience and I didn't like take some much normal classes

i liked the culture and the people from the other countries. i enjoyed the places we went to and had a lot of fun.

I love talk with all the students and teachers

I liked that I got the chance to exchange our cultures with other people, I didn't like that they would speak so little in English and more in their own mother language.

I liked talking with the others but some students are often talking each other with their own language and it's bad because we don't understand anything that way.

I like everything is good it make fun is very good

I liked to make model planes maybe if it will be with a motor I think that's funnier for me however I loved the activities and granada.

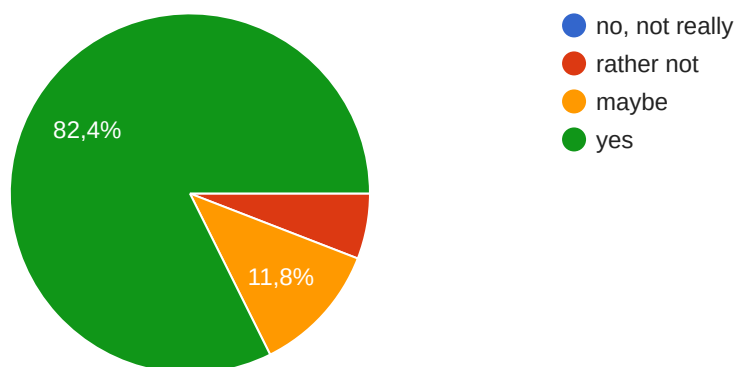

I like meet new people

I liked the most the communication with people for another countries

Would you like take part in another Erasmus+ mobility project?
