Overall Experience and Feedback

What did you like and what didn't you like about the ERASMUS+ Mobility project in Türkiye?

13 respuestas

I like the activities that we do. I didn't like that we couldn't travel to Turkey.

i like chatting with others and making rockets but i think it should be longer

I What I didn't like was not being able to do the mobility to Turkey, and what I like the most is meet new people

I liked the workshops it was fun but the other countries not being able to visit us wasn't something made me happy

The warm atmosphere shared with colleagues and students

There was nothing I didn't like, everything was carefully thought out.

ROCKETS ARE SO COOL, SERIOUSLY

To me the education about rocket was interesting and educational but we must do more cultural events to reflect Turkish culture to other students

I like everything

Everything is good

I liked meeting new people from different countries and learning about their cultures. I didn't like that we couldn't travel to Türkiye.

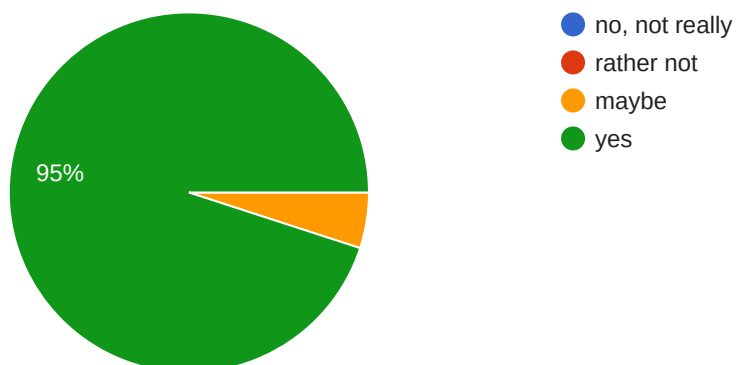

i didn't like that was online

I liked it it was pretty cool and the subjects mostly their presentations but what I didn't like was that we couldn't go there and spend time with them

Would you like to take part in another Erasmus+ mobility project?
